2015 / 16

Overview

Implement a stack of classifiers and evaluate the usefulness.

Target Group

Students interested in Machine Learning or Data Science.

- ▶ **Starting Point:** Read the relevant literature related to the topic of the thesis.
- ▶ **Implementation:** Implement a stack of classifiers following two hypothesis: i) feedback of the usefulness to the previous layer, ii) pass the output of the upper layers to the lower layers (recurrent).
- ▶ **Evaluation:** Compare the performance of the stacked classifiers against existing (ensemble) classifiers.
- ▶ **Written:** State-of-the-art overview, key concepts, implementation and evaluation results.
