

# Common implementation errors

Robert Thomann

May, 2018

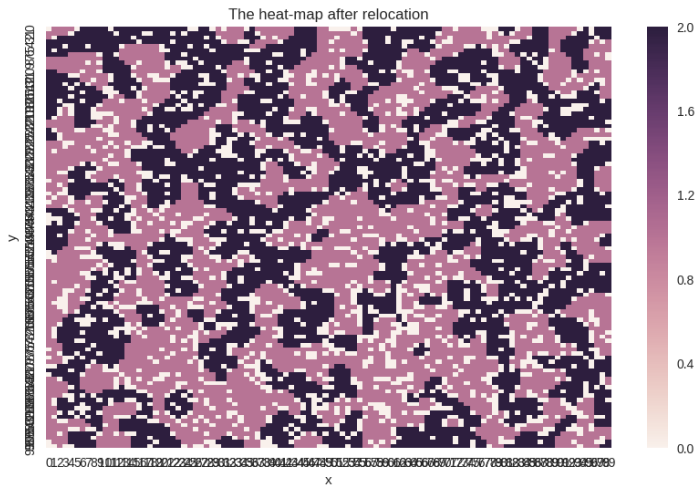

# Segregation model

Some good examples

Some common implementation errors

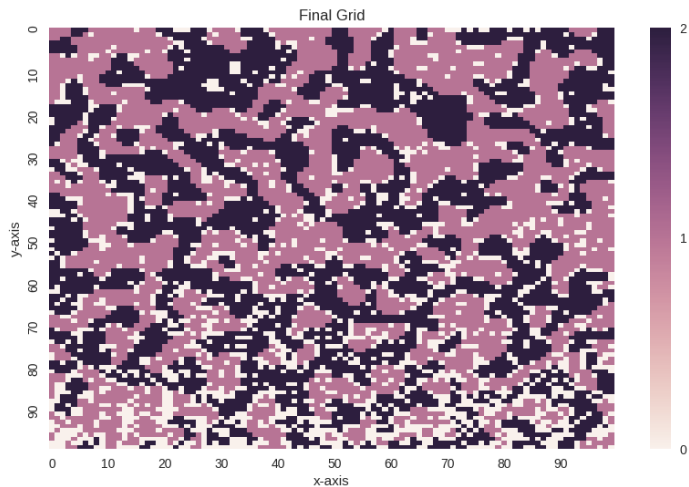

- drifting to one side
- wrong feature plotted
- happiness value for empty patches plotted

OK

## Error: drifting to one side

## Error: wrong feature plotted

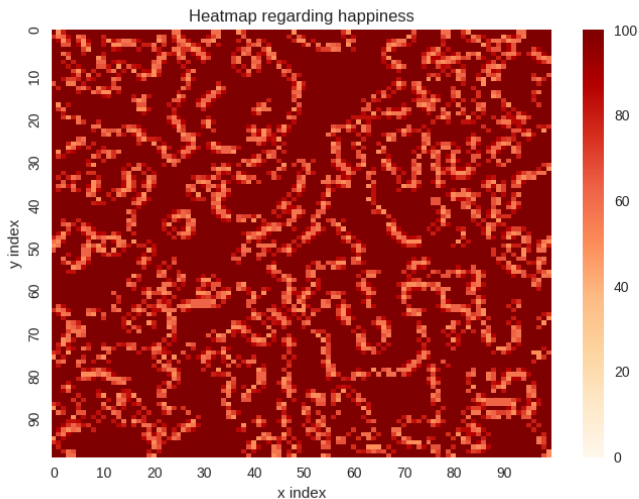

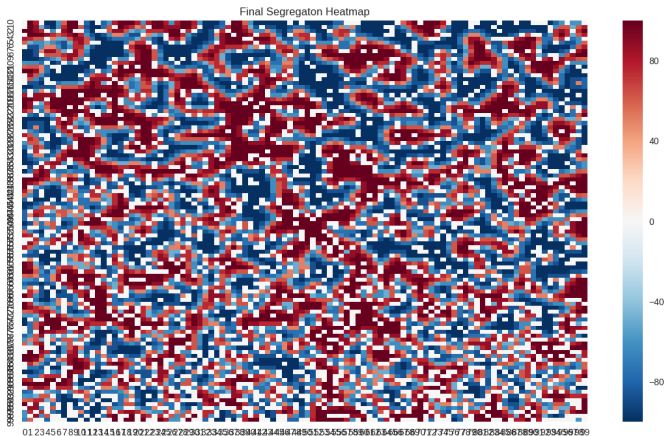

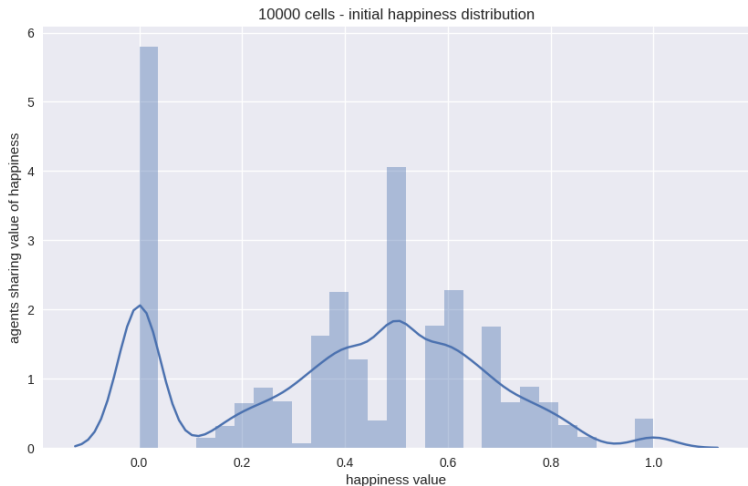

Figure 4: wrong feature plotted

# Error: wrong feature plotted 2

(also drifting to one side)

# Error: happiness value for empty patches plotted

# Rich get richer

## Common implementation errors

- Growth matrix not updated

# Error: Growth matrix not updated
